

Addendum – Item 7

Additional Sampling Request – CCRWQCB

Analyze for total nitrogen (TN), nitrate as N (NO₃-), total dissolved solids, chloride, sulfate, boron, and sodium in all the wells at the low and high screened elevations. Analysis for the other analytes is to obtain seasonal data points to see if the groundwater is meeting the Santa Ynez River Valley – Santa Ynez subbasin Basin Plan groundwater quality objectives.

Addendum – Item 9B

Preliminary Map – Downtown Core Water Mains
